How to Make Mixed Spice

Mixed spice usually comes pre-mixed that is a carefully balanced blend of the spices. Trying to create the correct mixture at home is not impossible but takes very careful measuring. Here are the approximate quantities:

- 1 tablespoon ground cinnamon
- 1 tablespoon ground nutmeg
- 2 teaspoons ground mace
- 1 teaspoon ground cloves
- 1 teaspoon ground coriander
- 1 teaspoon ground ginger
- 1 tablespoon ground allspice

Carefully mix all of the ingredients and store in an airtight container. The spices will stay fresh for a few months. Shake the mixture thoroughly before using.
